SUMMARY

Full Stack Software Engineer with 5+ years of professional experience specializing in Node.js, TypeScript, React.js, Next.js, and NestJS. Strong background in building, optimizing, and maintaining scalable web and mobile applications. Currently pursuing a Bachelor's degree in Computer Science at BINUS University. Passionate about continuous learning and delivering high-quality solutions in collaborative, and fast paced environments. Area of expertise:

Full Stack Technologies

- Node.js, Typescript, Python.
- React.js, Redux, Next.js, React Native, Ionic, Vue.js, State Management, UI Libraries
- Nestjs, Express.js, Laravel, GraphQL, Redis, MySQL, PostgreSQL, MongoDB.
- Docker, AWS, Azure Cloud, Vercel, Sentry.

WORK EXPERIENCE

Full Stack Developer - Remote **Singapore**
Jitera October 2024 - Present

- **Agile Collaboration and Coordination**: Work closely with cross-functional teams, including managers, team leads, designers, QA, and developers, to align project objectives, ensure clear communication, and deliver high-quality solutions within set timelines.
- **Code Quality and Compliance**: Perform in-depth code reviews and automated/manual testing to validate that software adheres to functional requirements, coding standards, and architectural best practices, ensuring seamless deployment readiness.
- **Security and Compliance**: Ensure applications adhere to industry security standards and compliance requirements by implementing robust measures during the development lifecycle.

Tools: GIT, Node.js, Typescript, Nestjs, React.js, Next.js, React Native, React Hooks, Tailwind, Zustand, Zod, TypeORM, MySQL, Supabase, AWS, Azure Cloud, Docker, JIRA, Performance Optimization, Presentation and Public Speaking.

Software Engineer - Remote **Abu Dhabi, United Arab Emirates**
Charcentric January 2022 – October 2024

- **Software Lifecycle Management**: Engage in researching, designing, and managing software programs, ensuring their seamless lifecycle progression.
- **Code Enhancement and Testing**: Developing, modifying software to rectify errors and enhance performance, and rigorously test and evaluate new programs for optimal functionality.
- **Collaborative Development and Support**: Collaborate with engineering staff, follow internal development processes, and communicate effectively within the team, clients, and stakeholders. Additionally, provide technical support to clients and monitor reported issues for swift resolution.

Tools: GIT, Node.js, Typescript, Python, React.js, Next.js, React Native, Ionic, Capacitor.js, Tailwind, Storybook, Prisma, PostgreSQL, AWS, Azure Cloud, Vercel, Sentry, Docker, JIRA, Presentation and Public Speaking.

Full Stack Developer **Jakarta, Indonesia**
PT Immobi Solusi Prima December 2020 – December 2021

- **Application Development for Internal Teams**: Spearheaded the design and development of applications tailored for Telkomsel's internal teams, focusing on user needs and seamless integration within the existing infrastructure.
- **Collaborative Development**: Worked closely with other engineers, sharing knowledge, and coordinating efforts to ensure cohesive development processes and successful project outcomes.
- **Performance Monitoring and Optimization**: Ensured the consistent performance of applications through continuous monitoring and proactive optimization, addressing potential issues before they impact operations.
- **Error Resolution and Debugging**: Led the debugging process, identifying, and resolving software issues to maintain application stability and reliability.

Tools: GIT, Node.js, Express.js, Sequelize, PHP, Laravel, MySQL, React.js, Ext.js, Presentation and Public Speaking.

INTERNSHIP EXPERIENCE

Information Technology Support Engineer **Bogor, Indonesia**
Institut Pertanian Bogor (IPB) University January 2019 – May 2019

- **Systems and Network Maintenance:** Ensured the smooth operation of computers, applications, and LAN networks to support uninterrupted learning activities, minimizing downtime, and enhancing user experience.
- **Technical Troubleshooting and Support**: Provided expert troubleshooting for hardware and network issues, quickly diagnosing and resolving problems to maintain optimal system performance.
- **Software and OS Installation**: Managed the installation and configuration of applications and operating systems, ensuring that all systems were up-to-date and equipped to meet user requirements.

EDUCATION

Computer Science, Bachelor's degree **Jakarta, Indonesia**
BINUS (Bina Nusantara) University (Online Program) May 2023 – Present

Immersive Full Stack JavaScript **Jakarta, Indonesia**
Hacktiv8 July 2020 – October 2020
Honors Graduate with Final Score: 94.79/100

Computer & Network Engineering **Bogor, Indonesia**
SMK Negeri 3 Bogor July 2017 – July 2020
Final Score: 84/100
